Jacobson Companies Announces John Bartnick as Director of Solutions Design and Project Management

Des Moines, IA – (June 17, 2011) – Jacobson Companies, a leading worldwide third party logistics company, is pleased to announce it has hired John Bartnick as its new Director of Solutions Design and Project Management.

In his position, Mr. Bartnick will provide industrial engineering and solutions design support for Jacobson as well as provide project management support on new operations, WMS installations and network projects. He will be based in Camp Hill, PA.

Stan Schrader, executive vice president of business development for Jacobson's Contract Logistics Solutions, commented, "We are very pleased that John has joined Jacobson Companies as the Director of Solutions Design and Project Management. As we continue our focus on strategic account management, John's team will be critical in developing and implementing the solutions that add value to our customers. We look forward to leveraging John's expertise and experience with Fortune 500 operations to further support our company vision of being the best at managing value-added supply chains, continuously improving operations and driving reliability in the flow of our customers' goods within the world's economy."

Mr. Bartnick comes to Jacobson from EXEL where he held the position of logistics design manager and was responsible for the design and re-design for existing accounts, building layout, work flow, MHE selection and managing multiple projects. He has held various positions within EXEL since 1999 including account manager, general manager and operations manager. Mr. Bartnick holds a bachelor's degree in behavioral sciences from Penn State University.

"I am excited about the opportunity to work with such a talented group of people within Jacobson Companies," Bartnick stated. "In the coming weeks and months, I look forward to learning about how the current solutions design and project management group operates and how my experience and talents in design and operations will further enhance Jacobson's offerings and service."
